FONDAREX®

Superior vacuum technology now in chill blocks

The only name in vacuum system technology now lends its expertise in chill blocks as well with automatic vacuum and pollution level measurement, vacuum regulation, and fault diagnostics. Fondarex makes several standard size chill blocks. Contact us for more specifications on the new chill block technology from the world's vacuum leader. Fondarex vacuum valves draw until the end of the injection cycle when the mechanical action of the molten metal closes the valve in less than a millisecond. Let Fondarex provide you with an application study for your parts. FRECH USA is the North American distributor for Fondarex with spare parts and support.
